APPENDIX – ENVIRONMENTAL CONSULTANCY SERVICES DEFINITIONS	ENVIRONMENTAL ASSESSMENT (EIA) & SUSTAINABLE DEVELOPMENT	Environmental/sustainability policy & strategy	About Environment Analyst
CLIMATE CHANGE & ENERGY	<p>Includes: assistance with planning and permitting applications (IPPC, etc); baseline surveys; expert witness; feasibility studies; impact assessment (including air/water/soil quality, archeological, biological, ecological, geotechnical, heritage, hydrogeological, landscape, noise and vibration, public health, odour and dust, social/cultural, visual, wildlife); master-planning; mitigation measures (identification, evaluation and monitoring); preliminary scoping and screening; preparation/review of environmental statement (ES); project management; stakeholder communications, engagement and public consultation; strategic environmental assessment (SEA): sustainable construction; sustainability assessments, appraisals and statements</p> <p>Excludes: stand-alone town & country planning</p>	<p>Includes: action plans; best practice benchmarking; brand management; corporate social responsibility & environment; corporate (CSR) reporting strategy and verification; green procurement; environmental economics and cost benefit analysis; key performance indicators; market research; policy formulation and implementation; public affairs; stakeholder communications & investor relations; supply chain management; strategic positioning; sustainability appraisal/strategy; sustainable business</p>	<p>Environment Analyst is a publishing and business research organisation with a remit to track performance and opportunities within the environmental services sector. Our core product is market intelligence about environmental consultancies, consisting of 3 main elements:</p>
<p>Climate change – carbon allowance tracking, carbon due diligence, carbon footprinting, carbon management (strategy and implementation), carbon offsetting advice, carbon reduction projects (assessment & design), carbon trading, climate change mitigation, policy, risk & strategy, greenhouse gas management, emissions reduction targets [associated with: building regulations, climate change agreements (CCAs), EU/UK emissions trading schemes, pollution prevention & control regulation, etc], emissions trading strategy</p> <p>Energy management – greening energy supply, energy efficiency, policy and strategy (public and private), programme management, utility resource management</p> <p>Renewable energy [biomass, combined heat & power (CHP) geothermal, energy from waste, solar, wave, wind, tidal] – contract negotiation, economic policy & analysis, technical and financial feasibility analysis, investment due diligence, planning support, project management support, technology evaluation</p> <p>Excludes: stand-alone oil & gas exploration consultancy</p>	<p>Ecological/landscape services</p> <p>Includes: baseline surveys; biodiversity action plans (BAPs); consultation/negotiation with regulators and stakeholders; ecological impact assessment; expert witness; fisheries & forestry management; geographical information systems (GIS); habitat creation, restoration, management; integrated land management plans; land use surveys; landscape planning & design; nature conservation management plans; regulatory compliance; visual appraisals</p>	WATER AND WASTE MANAGEMENT	<p>➤ Environment Analyst online news service; updated throughout the week</p>
<p>Air quality</p> <p>Includes: air quality/pollution impact assessments, best available technique (BAT) assessments, dispersion modelling, dust and odour assessments, emissions inventories, EIA support, expert witness, forecasting, health risk assessment, incident investigation, mitigation, monitoring, local air quality management (LAQM), permitting support (under the EPA part B industrial processes, IPPC, LAPC), process/end-of-pipe consultancy, regulatory compliance, risk assessments</p>	<p>Environmental noise & vibration</p> <p>Includes: baseline site surveys (incl. for PPC permitting); environmental noise & vibration monitoring and impact assessment; expert witness; modelling and prediction; design and specification of abatement measures; mitigation monitoring; regulatory compliance</p>	<p>Water quality and resource management</p> <p>Includes: abstraction management strategies; aquatic & marine ecology; best practicable environmental option (BPEO); catchment management; coastal processes and sediment transport monitoring/modelling; discharge monitoring/management; dispersion modelling; ecological assessment; environmental and social cost-benefit analysis of water resource / asset management plans; effluent treatment; expert witness; feasibility studies; flood risk assessment; impact assessment; incident investigation; hydraulics modelling; hydrological & hydrogeological assessments; pollution control, monitoring, mitigation and remediation; managed retreat & coastal realignment; oil spill response; process consultancy; quality analysis and toxicity testing; regulatory compliance; resource management (incl. demand and supply forecasting); riverine and coastal defences engineering design; sustainable urban drainage systems; water audits, conservation, recycling and efficiency programmes</p> <p>Excludes: stand-alone network management, leakage detection, process / structural engineering, plant design</p>	<ul style="list-style-type: none"> • Daily online news updates - on mergers, acquisitions, projects, appointments, financial results. • Interviews with industry leaders (including competitors, investors, clients and other expert commentators) • Analysis of service trends in areas including: carbon footprinting; contaminated land; EIA; energy consultancy; environmental due diligence; waste management consultancy; water/wastewater consultancy
<p>CONTAMINATED SITE ASSESSMENT/REMEDIATION</p> <p>Includes: desk studies; decommissioning; environmental due diligence and land transaction support; expert witness and litigation support; feasibility studies; groundwater remediation and treatment systems design; hydrogeological evaluations and modelling; incident investigations; IPPC site condition assessment; phase I environmental assessment (desk and walkover studies); phase II intrusive soil/groundwater investigations; radioactive contamination; remediation, reclamation and regeneration strategies, design and monitoring, plus on-site management and validation; regulatory authority negotiations; sustainable remediation solutions; risk assessment</p> <p>Excludes: remediation contracting and geotechnical engineering</p>	<p>ENV. DUE DILIGENCE, MANAGEMENT & COMPLIANCE</p>	<p>Waste management/recycling</p> <p>Includes: best practicable environmental option (BPEO) and best value assessments; collection, disposal, recovery (recycling & composting) and treatment options; contract procurement and implementation; energy recovery (EFW); feasibility studies; hazardous, clinical and radioactive wastes; landfill (assessment, design, leachate and gas management, remediation, restoration); market development; planning and consents support (permits and licensing); regulatory compliance; stakeholder engagement; waste audits; waste minimisation; waste policy and strategy; waste science and technology evaluation and sourcing</p> <p>Excludes: waste plant design</p>	<p>➤ Global Market Intelligence Service</p> <ul style="list-style-type: none"> • Profiles of 23 global environmental consulting firms, including year-on-year performance comparisons • Global market assessment including forecasts • Results of the annual global market trends survey
<p>Environmental liabilities, risks and hazards</p> <p>Includes: COMAH (control of major accident hazards) reports; corporate risk assessment; chemical portfolio risk analysis; crisis management and emergency planning; dispersion modelling; ecotoxicological risk assessment; environmental asset/liability assessment; environmental audits (audit protocols, audit reporting); environmental due diligence (EDD); environmental risk mapping, management and evaluation; hazard analysis (HAZAN) studies; hazard and operability (HAZOP) studies; health risk assessment; litigation support; REACH (Registration, Evaluation and Authorisation of Chemicals) compliance; site assessments, site monitoring plans; transaction support; quantitative/qualitative risk assessment</p> <p>Environmental management (systems) & compliance</p> <p>Includes: environmental management audits, benchmarking, compliance management; key performance indicators, preparatory review, policy development, objectives and targets, operational records and monitoring, reporting and communications; review, supply chain evaluation and training; EMS assurance/verification; legislation inventories; regulatory compliance assessments (e.g. COMAH, ELV, IPPC, packaging regulations, REACH, WEEE, WFD); resource management/audits</p>	<p>OTHER SERVICES</p> <p>Other environmental consultancy services and technical disciplines which do not fit under any of the above headings, e.g. product stewardship, eco-design and life-cycle analysis</p>	<p>➤ UK Market Intelligence Service</p> <ul style="list-style-type: none"> • Competitor analysis, profiling the 30 largest environmental consulting firms • Benchmark performance data: turnover growth, revenues per head, staff turnover & remuneration, fee rates, contract values, and profitability • UK market assessment including forecasts • Results of the annual UK market trends survey <p>Environment Analyst also publishes the Brownfield Briefing newsletter and Development + Infrastructure website, and run conferences and other events relating to the environmental and brownfield sectors.
